Benefits of **Nutra Green®**

Nutra Green® is a unique and True All Purpose fertilizer. Many other products use this word “All Purpose” but may mislead consumers. Nutra Green® contains the essential nutrients needed by the plant in a completely balanced, organic-based formula, ideal for optimal plant development. It is used all around the world in Agriculture and is excellent for all horticultural plants as well as vegetable gardens. Nutra Green® contains high balanced concentrations of micro-nutrients compared to other all purpose fertilizers.

- **Excellent Greening and Color Of Plants:** Nutra Green® has been found to be one of the strongest and most effective organic-based foliar products on the market today. Major Resorts, Agriculture, Agronomists and Horticulturists rely on its effectiveness. Green-up without rapid growth: Nutra Green® contains a unique proprietary combination of plant-based amino acids, organic acids and carbohydrates. Quick visual response: The chelated and complexed nutrients contained in Nutra Green® are rapidly absorbed into plant tissue to provide a rapid and sustained green-up.

- Nutra Green® also contains secondary nutrients (magnesium and sulfur) and a full range of micronutrients (iron, zinc, manganese, copper and boron) which are 100% chelated to alleviate most deficiencies.

- Iron, zinc and manganese deficiencies are very common in calcareous or high pH soils. The plant may yellow due to iron, zinc or manganese deficiencies. Nitrogen will not correct the problem; only proper nutrition will restore the natural green color and vigor of plants.

- Helps with Plant Stress Tolerance: Nutra Green® provides the plants with high levels of phosphorus and potassium, which increases plant’s tolerance to many stress conditions. There are also some indications by researchers, that phosphorus and potassium play a key role in reducing disease infections.

**Application Rates**

ADD WATER FIRST TO TANK OR SPRAYER BEFORE ADDING PRODUCT!

**AERIAL APPLICATIONS:** Use at least 20 parts water to 1 part of BAICOR® fertilizer. Add at least 20 parts water before introducing product.

**FOLIAR APPLICATIONS:** Use at least 100 parts water to 1 part BAICOR® fertilizer. Add at least 50 parts of water before introducing product.

**FRUIT, NUT & VINE CROPS:** Including (but not limited to) almonds, hazelnuts, grapes, pecans and walnuts. Apply 1 - 4 quarts per acre. **NOTE:** Before applying to pome or stone fruit, consult your qualified and licensed consultant for recommendations.

**FIELD AND VEGETABLE CROPS:** Apply 1 - 4 quarts per acre.

**GRAIN CROPS:** Apply 1 - 4 quarts per acre at 3-4 leaf stage.

**TURF GRASSES:** Apply 1 - 4 quarts per acre.

**SPRINKLER IRRIGATION:** Apply 1 - 4 quarts per acre with irrigation water. Use check valve to prevent back flow into water system.

**SOIL APPLICATION RATES:** Use at least 20 parts water to 1 part BAICOR® fertilizer. Do not apply directly to seeds unless it has been determined by the consultant or grower that it is not harmful or injurious to the seed.

- Maintenance Concentration: 2 qts/acre
- Beginning Deficiency: 3 qts/acre
- Severe Deficiency: 4 qts/acre
